

NISA ARDIYANTI

nisardiyanti@gmail.com | +6285721711003 | <https://itnayidra.github.io/resume-portfolio/>
Bantul, Special Region of Yogyakarta

A fresh graduate of the Applied Bachelor's Program in Geographic Information Systems with a strong foundation in surveying, spatial data processing, analysis, and visualization. Proficient in ArcGIS, QGIS, Google Earth Engine, and WebGIS development. Committed to applying geospatial expertise to support sustainable development and environmental resilience. Possess strong time management and a solid work ethic, adaptable in both individual and team environments, and eager to embrace challenges while growing with the company.

Work Experiences

Project Contract Staff – Palm Counting

Jul-Aug 2025

PT. Mahitala Ingkeng Gemah

- Conducted digitization of oil palm census within planting blocks.
- Compiled data from oil palm census results.
- Reported census progress weekly during online meetings.
- Met agreed weekly work completion targets.

Freelance GIS Operator

May-Jun 2025

PT. Bhumi Varta Technology

- Verified location point data of grocery stores according to the agreed quantity.
- Achieved minimum completion targets based on data difficulty and assigned area.

Assistant Lecturer of Advanced Geospatial Programming Practicum: Mobile Device

Aug-Dec 2024

Vocational School, Universitas Gadjah Mada

- Coordinated practicum assistants in guiding students and ensuring the smooth implementation of practicum sessions.
- Led, guided, and mentored 59 students through 14 practicum sessions on developing spatial-based mobile applications using Ionic Framework and React Native, integrating ArcGIS SDK and Leaflet into Ionic, and implementing CRUD features in React Native.
- Evaluated and assessed student's practicum reports weekly and provided feedback.
- Provided consultative support to students for collaborative learning and troubleshooting technical issues.
- Compiled administrative practicum reports as official documentation.

Assistant Lecturer of Advanced Geospatial Data Science Practicum

Aug-Dec 2024

Vocational School, Universitas Gadjah Mada

- Led, guided, and mentored 59 students through 14 practicum sessions on managing unstructured data, including location data extraction using ArcGIS Pro, data crawling from Google Maps, deep learning for object detection and instance segmentation in ArcGIS Pro, and land use and wildfire analysis using RStudio.
- Evaluated and assessed student's practicum reports weekly and provided feedback.
- Provided consultative support to students for collaborative learning and troubleshooting technical issues.
- Compiled administrative practicum reports as official documentation.

Assistant Lecturer of GIS for Coastal and Marine Studies Practicum

Aug-Dec 2024

Vocational School, Universitas Gadjah Mada.

- Led, guided, and mentored 60 students through 13 practicum sessions on shoreline delineation, shoreline change analysis using DSAS, mangrove vegetation mapping with Google Earth Engine (GEE), visual interpretation of geomorphology and benthic habitats, benthic habitat mapping using GEE, bathymetric mapping, and pelagic fish distribution analysis.
- Evaluated and assessed student's practicum reports weekly and provided feedback.
- Provided consultative support to students for collaborative learning and troubleshooting technical issues.
- Compiled administrative practicum reports as official documentation.

Assistant Lecturer of Geospatial Programming Practicum: Desktop

Feb-Jul 2024

Vocational School, Universitas Gadjah Mada.

- Led, guided, and mentored 70 students through 14 practicum sessions on developing desktop applications using DotSpatial and MapWinGIS libraries, as well as creating plugins for QGIS.
- Evaluated and assessed student's practicum reports weekly and provided feedback.
- Provided consultative support to students for collaborative learning and troubleshooting technical issues.
- Compiled administrative practicum reports as official documentation.

Assistant Lecturer of Information Technology Practicum

Feb-Jul 2024

Vocational School, Universitas Gadjah Mada.

- Coordinated practicum assistants in guiding students and ensuring the smooth implementation of practicum sessions.
- Led, guided, and mentored 70 students through 14 practicum sessions covering computer components, MySQL database management, web scraping with Overpass, web development using StoryMap, survey planning with Ina.io, data collection with Kobo Toolbox, digital twin development using Unity, and Augmented Reality creation with Vuforia.

- Evaluated and assessed student's practicum reports weekly and provided feedback.
- Provided consultative support to students for collaborative learning and troubleshooting technical issues.
- Compiled administrative practicum reports as official documentation.

WebGIS Developer Intern

Feb-May 2024

PT. TechnoGIS Indonesia

- Designed and developed a WebGIS for agricultural land suitability to identify and locate suitable areas, utilizing Laravel framework and OpenLayers library.

KKN-PPM UGM

Dec 2023-Feb 2024

Bantul, Special Region of Yogyakarta

- Updated the map of Gondangan Hamlet, Tirtomulyo Village, Kretek Subdistrict, Bantul Regency, in coordination with local community leaders.
- Conducted surveys and delineation of public facilities and UMKM locations in Gondangan Hamlet.
- Developed a tutorial module for StoryMap Organized socialization and training sessions on StoryMap for the IT division youth in Gondangan Hamlet.
- Created a StoryMap showcasing the potential of Gondangan Hamlet, highlighting its assets and development opportunities.
- Conducted land cover mapping of Gondangan Hamlet as a reference for targeted seedling distribution programs.
- Delivered educational sessions on maps to students at SD N Karen.

GIS Intern

Aug-Nov 2023

Dinas Lingkungan Hidup Kabupaten Bantul

- Conducted land cover interpretation of vegetation in Bantul Regency using high-resolution satellite imagery in GIS software (QGIS and ArcGIS).
- Documented the vegetation interpretation results in thematic maps and analytical report.
- Participated in field activities and collected air quality sampling location data in Bantul Regency.

Research Intern

Feb-Jul 2023

BRIN Pusat Riset Ekologi dan Etnobiologi, Sleman

- Conducted national-scale mapping of potential sites for micro-hydro power.
- Analyzed and extracted physical and socio-economic parameters of micro-hydro locations using both spatial and non-spatial data.
- Created and analyzed Standardized Precipitation Index (SPI) data for all regions in Indonesia.
- Co-authored a scientific paper titled "Micro Hydro Power Site Characterization in Indonesia: Variable Optimization for Site Selection Using GeoDetector and RFE-Random Forest" with supervisors and fellow interns.

Assistant Lecturer of Database Practicum

Aug-Dec 2022

Vocational School, Universitas Gadjah Mada.

- Led, guided, and mentored 62 students through 14 practicum sessions on spatial data management using FileMaker, phpMyAdmin, PostgreSQL with PostGIS extension, and KUGI data compilation.
- Evaluated and assessed student's practicum reports weekly and provided feedback.
- Provided consultative support to students for collaborative learning and troubleshooting technical issues.
- Compiled administrative practicum reports as official documentation.

Field Work Practice

Jun-Jul 2022

Kulon Progo, Special Region of Yogyakarta

- Conducted measurement and determination of hamlet boundaries in Ngargosari Village to verify administrative boundaries.
- Carried out population surveys to collect demographic and socio-economic data.
- Mapped potential tourist attractions in Ngargosari Village and created a tourism map.
- Designed a tourism potential poster as an informational medium to promote tourism attractions in the village.
- Compiled a final report presenting hamlet boundary mapping results, tourism potential, and data analysis

Field Work Practice

Jun-Jul 2021

Sleman, Special Region of Yogyakarta

- Conducted measurement and determination of hamlet boundaries in Ngargosari Village to verify administrative boundaries.
- Prepared geospatial data of Berbah Subdistrict, including village and district boundaries, using GIS software to ensure accurate spatial data.
- Designed map layout templates.
- Collaborated with the team to compile a map album and independently prepared the final report.

Education

Universitas Gadjah Mada

Aug 2020 - Jan 2025

Bachelor of Applied Science Geographic Information System, 3.79/4.00

- Choose as lecturer assistant and research project assistant.

- Actively participates in campus events, such as GIS webinars and skills training workshops.

SMK N 1 Bantul (2017-2020)

2017 - 2020

Vocational High School, Multimedia, 88.09/100.00

- Consistently ranked among the top 25% of the class academically.
- Achieved 2nd Place in Journalist Competition, DBL 2019 Yogyakarta.

Organizational Experiences

Bantul Bergerak Organization

Jun 2022 - May 2023

Head of Media and Information Department

- Coordinated members and collaborated across departments.
- Developed and designed content plans and graphics.
- Increased social media engagement by boosting insights and followers on Instagram and TikTok.

Keluarga Mahasiswa Departemen Teknologi Kebumihan

Dec 2020 - Jan 2022

Staff of Media and Information Departement

- Produced social media visuals, including designs for holiday commemorations.
- Developed the official cabinet logo.

Keluarga Mahasiswa Nahdlatul Ulama UGM

Mei 2021 - Mei 2022

Staff of Enterpreneurship

- Managed the Instagram account, ensuring brand consistency and updating relevant content.
- Created promotional content (photos, videos, and captions).

Rohis Tazakka, SMK N 1 Bantul

Dec 2017 - Aug 2019

Staff of Art

- Designed member name cards for Rohis Tazakka.
- Supervised and supported the hadroh art team.

Festival Hadroh Rohis Tazakka#4

Jan 2018

Staff of Documentation

- Documented festival activities to ensure comprehensive photo and video coverage.

Skills

Technical Skills: ArcMap, ArcGIS Online, QGIS, PostgreSQL, PostGIS, MySQL, Google Earth Engine, Visual Studio Code, Microsoft Office Suite (Word, PowerPoint, Excel, Access)

Non-Technical Skills: Teamwork, Communication, Responsibility, Time Management, Target-Oriented Work

Language Skills: Indonesian (native), English (basic)
